David McKay, Principal, Blackstone Forensics Ltd

David McKay is principal owner of Blackstone Forensics Ltd. He is also the program coordinator for the British Columbia Institute of Technology's (BCIT) Forensic Science & Technology Program and instructor of BCIT's CCTV & Forensic Examination course. During his time as a forensic video analyst with the RCMP, McKay viewed and analyzed over 2,000 crimes and criminals caught on various video and image recording systems (CCTV, video cameras, cell phones, taxi-cams, still cameras, and computers). He has been qualified multiple times as an expert witness in both BC Provincial and Supreme Court in the field of forensic video technology, specifically the forensic analysis of video and digital images.

David obtained his Bachelor of Science degree from Simon Fraser University in 2002, and his Advanced Specialty Certificate in Forensics from BCIT in 2004. He most recently completed the security systems technician training program at BCIT in 2008. He is a licensed security consultant and is involved in a variety of research projects at BCIT, including the ability to extract specific measurements (height, size, distance, speed) from recorded images.

Robert Luu, Senior Solutions Consultant, ACL

Robert Luu has been with ACL as a Solutions Consultant for 6 years providing strategic solutions and integrating technology platforms for Data-Driven Risk, Audit, and Compliance Management solutions across the globe. During this time, he has spent two of those years designing and implementing complex analysis and Continuous Monitoring solutions in a variety of business process areas – Accounts Payable, Travel and Expenses, Human Resources, Payroll, Cost Accounting, Inventory and Vendor Management, and IT Access Assurance, spanning across numerous industries – as well as providing Advisory and Enablement services for Data-Driven Risk and Audit Management professionals. Now he plays a key role in the Go-To-Market strategies for ACL's innovative solution stack.

Prior to joining ACL and becoming an ACL Certified Data Analyst (ACDA), Robert brings with him five years of experience designing customized data analysis and workflow solutions in an IBM z/OS Mainframe legacy system.

Steve Wilson, Manager, Investigative and Forensic Services, MNP LLP.

Steve Wilson has been involved with fraud investigation industry for the last 10 years. During this time, he has been actively involved in the strategic use of technology for fraud detection, prevention and investigations including the use of mobile device forensic techniques. As a passionate anti-fraud professional, he also continues to provide fraud awareness information and educational resources to the community. Steve has also recently been working with the British Columbia Institute of Technology to develop a new graduate level fraud and financial crime investigation program that is anticipated to start accepting students this fall.
